

Patient Early Access Site

WellMed is excited to announce the launch of our **Patient Early Access site**, a digital resource designed to support you in scheduling new patient appointments. This new offering will streamline your client's onboarding process, ensuring a seamless experience from start to finish. In addition to scheduling new patient appointments, the site also serves as a way to capture Agent of Record (AOR) information to help protect your book of business.

Here's how to access the site:

Step 1: Visit patientearlyaccess.com (or scan the QR code below) to access our client onboarding request form.

Step 2: Ensure your client reads and agrees to our consent form, granting permission to share their information with us.

Step 3: Complete and submit the form.

Step 4: We'll handle scheduling your client's first appointment. Please let your client know what to expect next:

- a phone call from our dedicated team to schedule their first appointment
- an email notification informing you and your client that an appointment has been scheduled

Scan the QR code or visit patientearlyaccess.com
to begin using the patient early access site.

Better Together.
